WHO IS THE NRA?

The National Retail Association is one of Australia's largest and most representative retail industry organisations, servicing more than 24,000 retail and fast food outlets nationwide.

At our core, we help retail and service sector businesses navigate and comply with an ever-changing, highly-competitive environment.

Our members range from small, family owned and operated businesses to leading national brands; and span nearly every retail category including fashion, groceries, department stores, household goods, hardware, fast food, cafes and services.

Unlike other associations, The NRA is the only retail industry association to deliver practical legal advice through its wholly owned and incorporated legal practice, NRA Legal. We never outsource.

We are also a national RTO (Registered Training Organisation). Meaning we can deliver a wide range of accredited and non-accredited courses upon request. These range from certificate and diploma qualifications and pre-employment programs right through to customer service training, retail traineeships and mystery shopping services.

The NRA's reputation as the pre-eminent provider of professional services to the sector is demonstrated by the significant number of associations, buying groups and franchise networks who have chosen to partner with the NRA.

Partnership with the NRA means affiliation with the peak national retail body and positioning your company as a preferred provider to a valuable segment of Australia's retail industry.
